01. UPDATE TO PUBLIC DISCLOSURE REQUIREMENTS FOR PROJECT DOCUMENTATION

UPDATE: PUBLIC DISCLOSURE REQUIREMENTS FOR PROJECT DOCUMENTATION

Publication: 11th October, 2023 (v1.1)

- This document provides clarification on the GS4GG Principles and Requirements
- Clarify on Section 6 regarding Project Documentation and Technical Requirements.
- Outlines the project information and documents required to be publicly available through the Gold Standard Registry.
- The document also addresses the treatment of confidential information and the submission process.

SUSTAINCERT

Review Process

- Upon conclusion of preliminary review, design review, design change review and performance review, SC makes the final files publicly available in the Gold Standard registry.

- Some of the documents contain confidential information which PD will prefer not to be visible to general public

SUSTAINCERT

Role of PD and VVB

- It is the responsibility of the PD and VVB to identify confidential information submitted and mark it confidential
- SC can not usurp the role of identifying confidential information in the project during reviews
- PD shall at onset inform SC by marking the file confidential or via email specifying which files are deemed confidential
- Whenever confidential information is submitted, PD and VVB shall always submit a confidential file and non-confidential file. The non-confidential file will be made public in the registry.
